PROFESSIONAL SUMMARY

Passionate Full- Stack Developer with hands-on experience in designing and developing responsive, user-friendly web applications using HTML5, CSS3, JavaScript, React.js, and Bootstrap. Strong understanding of modern UI design, reusable components, and responsive web development. Eager to learn new technologies and contribute to building high-quality web applications.

EDUCATION

PSNA College of Engineering and Technology, Dindigul

2022 – 2026 | Dindigul

B.E – Biomedical Engineering

CGPA – 8.26

TECHNICAL SKILLS

Frontend

- HTML5
- CSS3
- JavaScript
- React.js

Web Development

- Responsive Web Design
- API Integration
- Database Management
- Authentication & Backend

Programming Languages

- Java
- Python
- JavaScript
- SQL

Tools & Design

- VS Code, GitHub
- Netlify, Vercel
- Figma, Canva
- Adobe Photoshop

INTERNSHIP

Internship at Bureau of Indian Standards

Worked under the MHD-14 Committee at BIS Headquarters, New Delhi, on a pre-standardization draft for Pneumatic Tube Transport Systems (PTS) in healthcare facilities. Analyzed technical specifications, safety requirements, and operational workflows, and prepared formal government documentation and compliance reports.

PROFESSIONAL EXPERIENCE

TCS – GenAI Powered Data Analytics Job Simulation

Completed the TCS GenAI Powered Data Analytics Job Simulation (Forage), where I worked on data analysis, dashboard creation, and GenAI-assisted insights to support data-driven decision making.

TRAININGS

Young Creators Program

November 2024

03 Days of Certified Training from Zoho Corporation Pvt. Ltd, Chennai. Hands-on training in creating low-code mobile applications.

IBM SkillsBuild - Cloud Computing Program

November 2025

Completed a 4-day certification training on Introduction & Fundamentals of Cloud, gaining foundational knowledge of cloud computing concepts, service models (IaaS, PaaS, SaaS), and basic cloud architecture.

PROJECTS

MedXperia 2K26 – Symposium Website - Tech Stack: HTML5, CSS3, JavaScript, Three.js/WebGL

- Built the official website for MedXperia 2K26, a National Level Biomedical Engineering Symposium, with a responsive, modern UI in vanilla JavaScript
- Integrated an interactive 3D model for an immersive experience and built interactive event cards with smooth navigation across technical, non-technical, and registration sections

Mellow Desserts – E-Commerce Website - Tech Stack: HTML5, CSS3, JavaScript, Supabase, Razorpay, Resend

- Built a dessert ordering website with a responsive product catalog, shopping cart, and Razorpay payment integration via serverless Netlify functions
- Implemented Supabase authentication and an admin dashboard, plus automated order/welcome emails via Resend

DeepDive – Scuba Diving Booking Platform - Tech Stack: HTML5, CSS3, JavaScript, Supabase

- Developed a full-stack scuba diving reservation platform with secure authentication and end-to-end booking flow
- Designed Supabase database schemas for bookings and reviews, and built an admin panel to manage listings and bookings
